Either during or after you have watched these videos, think about the following things:

- Who were the key individuals that made a difference in each city? Do you think they were the only ones?
- Which historic and present-day communities do you see in each city?
- How did settlers treat communities that were already here as they moved into this land?
- How do immigrants play a role in our history?
- What kind of businesses gave people jobs in each city?
- Which natural resources did each city use? How did they use them? Where did they get them from?
 - o Animals, rocks and mineral, plants and trees, water, air
- How important was the railroad for each of these cities? Do you think they would have grown the way they did if it didn't exist?

Thank you again for building Colorado with us! We hope you learned a lot and had a great time!
